# Between modernism and tradition

Now a part of the Beretta holding, which took a major part of our society's capital, our growth perspectives abroad are important, thanks to the group's wide network of retailers. Determined to keep our strong position on the French market, we made the choice to expand our network of retailers by creating a new sales department within the Humbert Society . In order to support these perspectives, we plan an expansion and a reinforcement of our production capacities. We already have an important array of machinery, with several workhouses equipped with 5 axes, numerically controlled machine tools. We are pursuing the modernisation of our « Atelier » by investing in new machining technologies, while upgrading our management software, necessary to control our production.

We are determined to listen to your needs and this year again, we have expanded our offer on our ROLS straight pull rifles. You will find in this new catalog a wholly new version, called « Performance » It has a stock with a thumbhole, top-notch ergonomics. This new model will allow the most demanding hunters to select a straight pull rifle perfectly suited to all the needs of modern hunters, switching instantly from a rifle meant for long distance shots to a quick reloading rifle suited for big game driven hunts.

We invite you now to discover this new collection, conceived for the present and for the future.

Vincent, David **CHAPUIS**

## PASSION - INNOVATION - ACCURACY

The new range of our straight pull action rifle

### NEW RANGE OF STRAIGHT PULL RIFLE

Imagined, designed, engineered and entirely manufactured in our workshop in Saint Bonnet le Château, the new straight pull rifle ROLS is the result of the passion and know-how of the engineers and technicians from Chapuis Armes. Despite our great expertise in rifles, no less than 6 years were needed to perfect, realize, test and put the final touch on this new rifle with its entirely new straight pull bolt action based on a 100% new mechanism. Protected by several patents, this new ROLS rifle has undergone many field tests, and immediately after its presentation in March 2017, the press specialized on arms and hunting unanimously cheered the new ROLS because of its technical performance and its perfect ergonomics.

### TECHNICALS FEATURES

1. For greater precision, the mounts lock directly on the barrel itself.
2. The new and patented "Chapuis Locking System" is of unmatched strength thanks to its bearing surface of 260 mm².
3. The design of the cocking/decoking device, its specific, carefully thought shape are meant for an easy use.
4. A new and patented internal safety device allows firing only when the bolt is completely locked.
5. New rotary detachable magazine.
6. Secured on a high strength steel insert, the high precision barrels are assembled by means of a screw under the barrel.

# ROLS **PERFORMANCE**

New one piece stock for right-handed hunters. The ergonomics of its grip reduces the tensions in the hand holding the rifle. The perfect ergonomics of the stock will relax the shooter, enhancing stability, allowing a perfect control of the shot. The optimal design of the thumbhole allows a very fast repositionning of the hand between each shot, without loosing the line of sight, thus allowing quick reloads in a driven hunt. The finger rests on the front of the grip and the thumb rest on the left side of the stock allow a comfortable handling of the rifle. The natural material of the stock: « Technosoft », is highly resistant, has a synthetic « Soft Touch » coating for a better hold, whatever the weather conditions.

**Technical features:** Receiver made of Fortal 7075 alloy, inserted into the stock. One-piece stock with thumbhole, made of a natural material : « Technosoft ». Recoil pad. Lever with black synthetic handle. Rotating magazine. Interchangeable barrel. Barrel with triangle-shaped, patented luminescent open (iron) rear sight, adjustable front sight. On request, the barrel can be sold without open (iron) sights. Swivel studs and sling swivels.

Calibers available are listed on page 8.

# ROLS **SOFT TOUCH**

The composite black stock provides an outstanding grip, even when wet. This Off road stock will satisfy the most adventurous hunters for hunts in the most extreme conditions. The “Soft touch” coating of this one-piece stock is particularly scratch and dent resistant. The new receiver is machined from a Fortal 7075 alloy billet inserted in the stock. The general balance, pointability of the rifle allow a quick sighting on target.

**Tehnical features:** Same features than those of the « Performance » model. Stock with « Soft Touch » coating, regular pistol grip, without cheekpiece.

Calibers available are listed on page 8.

ROLS **CLASSIC**

**Features:** Solid receiver machined from a Fortal 7075 alloy billet anodized, bronze or black on request. Pistol grip 3 stars grade stock, sanded, oil finished, with Monte-Carlo hump, tulip-shaped fore-end tip. Recoil pad. Bolt lever with black, round handle. Detachable, rotary magazine box. Switch barrels. Opens sights with height-adjustable front bead, patented luminescent, triangle shaped rear sight. On request, barrels are available without open sights. Sling swivels.

Calibers available are listed on page 8.

Intended to be the extension of your own arm, this new rifle will be suited for any types of hunts, be it driven, walk and stalk, from a hide, in the mountains. Thanks to its modular conception, it will suit any terrain. Offered in a version without ornaments, this model has a classic style, typical of quality gun makers, with a beautiful walnut stock, sanded and oiled, bronze or black colored action.

# ROLS ELEGANCE

“Traditional” is the word that comes to one’s mind when looking at this rifle. The objective of this new model is to maintain the technical, mechanical qualities of our new straight pull bolt rifle, while offering a new version blessed with the aesthetic codes of the classic rifles. The receiver machined from a Fortal 7075 alloy billet is inserted in a one-piece rounded stock, a feature of the “Chapuis” rifles. This modern rifle incredibly light is easy to aim. Thanks to its flush action, quick, follow-on shots can be fired. It is perfectly suited for driven hunts. Switch barrels allow the hunter to face any hunting situation in any of the five continents, year round.

## TECHNICAL DATA SHEET

Available calibers for all models, matching magazines and type of bolts.

Caliber	Type of magazine	Magazine capacity	Type of bolt	Barrel length	Weight
6,5x55SE	Mini	4+1	Standard	600 mm	3 kg
243Win	Mini	4+1	Standard	600 mm	3 kg
308Win	Mini	4+1	Standard	600 mm	3 kg
30.06	Standard	4+1	Standard	600 mm	3 kg
7x64	Standard	4+1	Standard	600 mm	3 kg
270Win	Standard	4+1	Standard	600 mm	3 kg
9,3x62	Medium	3+1	Standard	600 mm	3 kg
300Win Mag	Magnum	3+1	Magnum	630 mm	3,1 kg
7Rem Mag	Magnum	3+1	Magnum	630 mm	3,1 kg
375 H&H	Africain	3+1	Magnum	650 mm	3,3 kg

**Features:** Receiver machined from a Fortal 7075 alloy billet, inserted in the stock. Pistol grip stock made of Grade 3 walnut, sanded and oil finished. Recoil pad. Bolt lever with walnut round handle. Rotary, detachable magazine. Switch barrels. Open sights with height-adjustable front bead, patented luminescent, triangle shaped rear sight. On request, barrels are available without open sights. On option : New take-down pistol grip cap with its multi-purpose tool. Detachable Sling swivels.

**ROLS DELUXE**

Presented with a higher degree of finish, this model will please the most demanding hunters. On the sides of the receiver the finest and most elegant engravings drawn by one of our masters engravers are to be found, showing hunting scenes of a stunning realism. They offer elegant, selected, grade 4 walnut stocks. The stock and fore end are sanded and oil finished, so as to show the exceptional patterns of these century old wood pieces.

After the first feedbacks from our customers concerning our ROLS rifle, it appeared important to us to give them a handy means to disassemble the rifle without having to look for a tool. This new multi-purpose tool has been conceived to give you full autonomy for assembling and disassembling your ROLS rifle. Our engineers were able to house it into the pistol grip, integrated to an elegant take-down pistol grip cap. The barrel as well as the bolt can be changed with it. This cap and its integrated tool have been patented.

**Features:** Solid receiver machined from a Fortal 7075 alloy billet anodized in grey color. Laser-made engravings with acanthus leaves, hunting scenes on either sides of the receiver. Grade 4 walnut pistol grip stock with Monte-Carlo hump, tulip-shaped fore- end tip, sanded and oil finished. New take-down pistol grip cap with its multi-purpose tool. Recoil pad. Bolt lever with walnut round handle. Rotary, detachable magazine box (see available calibers P.15). Opens sights with height-adjustable front bead, patented luminescent, triangle shaped rear sight. On request, barrels are available without open sights. Detachable sling swivels.

Calibers available are listed on page 8.

# ROLS ARTISAN

This version is the true flagship of our range. It is certainly the most perfected version, which displays the best and age-old experience and craftsmanship of the best gunsmiths from our workshop, as well as the most recent technologies. This rifle is a first rate model, just as all guns coming out of the “Chapuis Armes Custom Shop “. Customization is only limited by your imagination. Beautiful hand-made engravings, signed by our best master engravers, can be ordered at will and within your budget.

**Features:** Solid receiver machined from a Fortal 7075 alloy anodized grey. Hand-made engravings, signed by a master engraver with ornamentation and hunting scenes on either side of the receiver. Pistol grip stock with Monte-Carlo hump. Grand Luxe grade 5 walnut, sanded and oil-finished. Ebony rounded fore-end tip. New take-down pistol grip cap with its multi-purpose tool or on demand skeleton grip cap. Recoil pad. Alloy bolt lever with checkered handle, “old silver” color (black on request) Detachable, rotary magazine box. Fluted and switch barrels (see available calibers P 15.). Opens sights with height-adjustable front bead, patented luminescent, triangle shaped rear sight. On request, fluted barrels are available without open sights. Detachable sling swivels. Delivered ABS Chapuis Armes Prestige gun case.

Calibers available are listed on page 8.

# Classic Collection

with Round Action

**Chapuis Armes offers many options for every gun, such as a single:**

- non-selective trigger unit

**On all Express rifles, the customer may opt for:**

- Pivot scope mounts and rings
- German claw-type scope mounts for rail-fitted scopes
- Additional smoothbore barrel kits in either 20 ga. or 28 ga., barrel length and chokes per customer request .

# Classic Collection

Over & under Express rifle with a free floating barrel design and a mechanical system to adjust the convergence of the barrels. The Soul of these new express rifles obviously resides in the hidden barrel regulating system. Whether you fire four, six or eight rounds cartridges in a quick succession or just send one or two bullets on their way to your game, convergence and regulation stay assured in most hunting situations and with most quality cartridges. With this new over & under double rifle the regulation adjustment block is not visible.

Light weight

Six fast shots from both barrels in 9,3 x 74 R calibre. Note the even repartition of impacts.

Free-floating lower barrel.

Adjustable regulating block.

## C5 Light Extractor C10 Light Ejector

Available Calibers: 8 x 57JRS –  
9,3 x 74R – 30.06

Average weight: 2,9 kg

## C5 – C10 Light.

Receiver manufacture from ultralight alloy material Fortal 7075. Game scenes engraved on both side of the receiver. Special heat treatment on all the metal parts with a grey finish. Pistol grip stock with English style cheek piece and rounded contour with AA fancy walnut on the Extractor version and AAA fancy on the Ejector. Oil finish with fine checkering.

## S12 – Extractors or Ejectors

Available Calibers: 8 x 57JRS –  
9,3 x 74R – 30R Blaser – 30.06

Average weight: 3,1 kg

## S12.

Round-body action in matte blued finish. Gilded non-selective single trigger. Hand-rubbed oil finished AA Fancy walnut stock, round English-style cheekpiece, fine checkering / Approx.

# Classic — Collection

## Super Orion over & under Express rifles

Built on a new, subtly detailed and rounded-out, slim and low action, with new delicate wraparound full-coverage engraving, these are very light double rifles – yet they possess an absolutely extraordinary balance and are acclaimed as the fastest rifles in their category.

### C5 Extractor – C10 Ejector

Available Calibers: 9,3 x 74R –  
8 x 57JRS – 7 x 65R – optional  
calibres 30R Blaser – 300Win Mag  
375H&H – 30.06

**Average weight: 3,2 kg**

### C5-C10.

New round body action based on our 20 Gauge frame. New deep-cut engraving wrapped around the receiver with a sophisticated decor in English scroll and bouquets plus new game scenes on action sides and bottom. Double trigger “Blitz” type battery. 55cm (22in) Barrels pre-machined for scope sight mounts. Luminescent rib rear sight and adjustable foresight. AAA fancy walnut rounded stock with English style cheek piece and similar forend on Ejector guns (2 stars walnut on the Extractor version). Comes in an CHAPUIS ARMES ABS molded case equipped with coded locks.

### C15 Serie 3 – Ejector

New scalloped 28 ga. round action

Available Calibers: 9,3 x 74R –  
8 x 57JRS – 30.30 Win

**Average weight: 2,9 kg**

### C15 Serie 3.

New action, originally developed for 28 ga., with reduced height and width for faster handling. Rounded out design, with a smaller detonating and reduced firing pins spacing. New “Royal” style deep-cut engraving wrapping around the receiver, with new game scenes engraved on both sides and bottom of the action. New barrels profiles, 55 cm (22-in.) length. AAAA Fancy walnut rounded stock with english-style cheekpiece, smaller forend. Comes in an CHAPUIS ARMES ABS molded case equipped with coded locks.

### C25 Serie 3 – Ejector

New scalloped 28 ga. round action,  
fitted with sideplates

Available Calibers: 9,3 x 74R –  
8 x 57JRS – 30.30 Win

**Average weight: 2,9 kg**

### C25 Serie 3.

Same features as the Model C 15 Série 3. Plus: Boxlock with sideplates. New engravings Holland & Holland « Royal » style, with hunting scenes on the sides and underside of the action. 4 stars grade walnut stock with pistol grip and English cheekpiece. Steel pistol grip cap hand-engraved. Checkered walnut recoil plate. « Blitz » type lockwork with two triggers, short trigger guard. Gun case « Chapuis Armes » made in ABS synthetic material, with code operated locks.

# Classic — Collection

In a conventional double rifle, barrel convergence can only be obtained by a complex soldering operation that requires highly skilled labour and mandates the use of only one load. With very few exceptions, this means that going to another load requires re-regulation of the barrels, which implies returning the gun to the factory for intricate polishing and blueing.

## Side-by-side Express rifle

Six quick successive shots, 9,3 x 74 mm R calibre. Note the stability of point of impact.

Mechanical adjustment device.

Free floating right barrel.

### X4 - Extractors or Ejectors

Available Calibers: 8 x 57JRS -  
9,3 x 74R - 30.06 - 30R Blaser -  
308 Win

Average weight: 3,1 kg

### X4.

Scalloped receiver with mustaches reinforcements. New deep engraving with large scrolls for the ornamentals and wild boar or roebuck trophy engraved underneath the receiver. Pistol grip stock with English style cheekpiece in AA Fancy walnut. Hand-rubbed oil finish hand cut checkering.

# Classic Collection

## Progress side-by-side Express rifles

We managed to keep the weight of these sleek double rifles under 3 kg and retained their exceptional accuracy, sensational balance and fast-handling particulars. These are designed for quick response when driven big game is the order of the day.

### Ugex – Extractor or Ejector

Available Calibers: 9,3 x 74R –  
8 x 57JRS – 7 x 65R Blaser option :  
30R Blaser – 30.06

Average weight: 3,2 kg

### UGEX.

Inlaid scalloped receiver. “Royal” style deep cut engraving the receiver, with game scenes on action sides and bottom. Double parallel underlugs on the 55 cm (22 in.) barrels (also available in 600 mm (24 in.) length), reshaped and fitted out with a new “battue” luminescent rib rear sight and an adjustable foresight. Quarter rib is pre-machined for scope sight mounts. AAA fancy grade walnut pistol grip stock with English-style cheekpiece on ejector guns (AA fancy grade on extractor versions). Matching checkered walnut buttplate and forend. Hand-rubbed oil finish, hand cut checkering. Double-trigger “Blitz”-type battery. Comes in an ABS molded case equipped with coded locks.

### Rgex Serie 3 – Ejector

New scalloped 28 ga. round action

Available Calibers: 9,3 x 74R –  
8 x 57JRS

Average weight: 3 kg

### RGEX Serie 3.

New, round profile narrow (28 ga.) Serie 3 receiver. The barrels are set closer to each other and the detonating has been reshaped and refined. New “Royal” style deep cut engraving wrapped around the receiver, with new game scenes on action sides and bottom. Double parallel underlugs on the 55 cm (22 in.) barrels, reshaped and fitted out with a new “battue” rib sight and a streamlined foresight. AAAA grade walnut pistol grip stock with English-style round cheekpiece and engraved steel grip cap. Matching walnut buttplate and forend with a fully inlaid smaller lever lock. Hand-rubbed oil finish, hand cut checkering. Double-trigger “Blitz”-type battery, short trigger guard. Comes in an ABS molded case equipped with coded locks.

### Rex Serie 3 – Ejector

New scalloped 28 ga. round action,  
fitted with sideplates

Available Calibers: 9,3 x 74R –  
8 x 57JRS

Average weight: 3 kg

### REX Serie 3.

Identical construction to RGEX Serie 3, however with sideplates. New deep-cut “Royal” style engraving wrapping around the receiver, with new game scenes on sideplates, receiver sides and bottom. AAAA grade walnut pistol grip stock with English-style round cheekpiece and engraved steel grip cap. Matching walnut buttplate and forend with a fully inlaid smaller lever lock. Hand-rubbed oil finish, hand cut checkering. Double-trigger “Blitz”-type battery, short trigger guard. Comes in an ABS molded case equipped with coded locks.

# Classic Collection

## Over & Under Super Orion Light weight shotgun Limited Edition

The technical design of our Super Orion receiver which is one of the lowest in the market has an interchangeable recoil plate located just underneath the barrel that confer to our Shotgun an exceptional strength. As our over & under is one of strongest shotgun we present today the C30-C35 Light, a lightweight version of our iconic Super Orion. The choice of rough material is always a critical step in the manufacturing process of hunting weapons, we conducted extensive research with our metallurgist's partners to offer what's now the best in terms of Ultralight alloy.

### C35 Light Limited Edition - Ejector

Upland type

Pistol grip or Straight stock made out  
of 2 Stars walnut on C30 -  
3 Stars on C35

Gauges available: 12 - 20Mag with  
Fixed Chokes or interchangeable  
Chokes Tubes Optional

Ventilated rib with barrel lenght:  
700mm (28in) or 760mm (30in)  
Optional

**Average weight: 2,7 kg**

### C35 Light Limited Edition.

Action made of Fortal 7075 alloy. New finish of the action, round-shaped breeches with ribs underlining the barrels. New engravings, English style. Limited production of 100 guns with serial number stamped on the underside. Each gun is supplied with a certificate of authenticity. 3 stars grade walnut stock with pistol grip. Tulip-shaped frontpiece. Gun case in ABS synthetic material with « Chapuis Armes » logo. Weight for 12 gauge and 70 cm barrel : approx : 2,8 kg.

### C60 Light weight Woodcock - Extractor C65 Light weight Woodcock - Ejector

Woodcock type

Pistol grip or Straight stock made out  
of 2 Stars walnut on C60 - 3 Stars  
on C65

Gauges available: 12 - 20Mag with  
Fixed Chokes or interchangeable  
Chokes Tubes Optional

Plume rib with barrel length:  
600mm (23 ½ in) or 660mm (26in)

**Average weight: 2,5 kg (5Lbs 19oz)  
depending on gauge and barrel  
length**

### C60-C65 Light weight Woodcock.

Action made of Fortal 7075alloy. Engravings with flowers without animals, or on request, woodcocks in woods landscape. Barrels « Bécassier » style (without ribs between the barrels ) 60 cm long. Walnut stock with pistol grip, 2 stars grade for the C 60 and 3 stars grade for the C 65. Tulip shaped frontpiece. Gun case in ABS synthetic material with « Chapuis Armes » logo. Weight for 12 gauge, 70 cm barrel : approx. 2,5 kg.

# Classic Collection

Super Orion over & under shotguns

The robust Super Orion action has been redesigned to achieve a round profile, yet remains shallow and light. A new english-style scrollwork engraving is applied to the entire receiver for a timeless refined appearance, turning the Super Orion Round Design into one of the few guns of reference in the highly disputed over-and-under fine gun category.

### RP Round Design.

Identical to the RGP Ejector Round Design model, however fitted with side plates. New engraving pattern in fine English scroll wrapping around the action, new game scenes on the sideplates and action bottom. Pistol grip stock wih English-style cheekpiece carved out of AAAA Fancy walnut, buttplate in matching checkered walnut. Double trigger "Blitz"-type battery and short trigger guard plate.

# Classic Collection 28 GAUGE

Super Orion shotguns  
and Progress side-by-side

The renewed interest of dedicated hunters and shotgunners in the 28 ga. quickly translated in many guns being launched on the market. Many of these are not true 28 ga. designs and are heavier than needed to fire this small but very efficient cartridge. At Chapuis Armes, we worked up from the cartridge dimensions and paid special attention to conserving the balance, light weight and liveliness of our Super Orion smoothbores, painstakingly shaping the entirely new round body action and the detonating. The best shotgunners around the world have already told us that the exquisite lines of this new shotgun, along with its tried and proven mechanical reliability, place it very high indeed in this emerging category.

## 28 ga. C35 RD - Ejector

New round body action, scalloped for perfect fit

Barrel length: 710 mm (28 in.) barrels - 760 mm (option)

Fixed chokes standard, interchangeable choke tubes optional

Average weight: 2,5 kg

## 28 ga. C35 Round Design.

All-new round body action featuring a reduced distance (20 mm) between firing pins, fitted with interchangeable recoil plates. Barrel length is 710 mm (28 in.). New deep-cut engraving wrapped around the receiver, with a sophisticated decor in english scroll and bouquets, plus new game scenes on action sides and bottom. Double-trigger "Blitz" type battery with short trigger plate. AAA fancy grade walnut straight grip stock slightly and elegantly rounded out. Hand-rubbed oil finish, hand cut checkering. Comes in a molded plastic case with coded locks.

## 28 ga. C40 RD - Ejector

New round body action with sideplates

Barrel length: 710 mm (28 in.) barrels - 760 mm (option)

Fixed chokes standard, interchangeable choke tubes optional

Average weight: 2,5 kg

## 28 ga. C40 Round Design.

Globally identical to the Super Orion Round Design C35 model, however fitted with sideplates. New deep-cut engraving wrapped around the receiver, with a sophisticated decor in english scroll and bouquets, plus new game scenes on action sideplates and bottom. Double-trigger "Blitz" type battery with short trigger plate. AAAA fancy grade walnut straight grip stock slightly and elegantly rounded out, matching checkered walnut buttplate. Hand-rubbed oil finish, hand cut checkering. Double-trigger "Blitz" type battery with short trigger plate. Comes in a molded plastic case with coded locks.

## 28 ga. RGP - Ejector

New round body action, scalloped for perfect fit

Barrel length: 710 mm (28 in.) - 760 mm (option)

Fixed chokes (interchangeable choke tubes optional)

Average weight: 2,450 kg

## 28 ga. RGP.

New Progress receiver with a firing distance reduce to 20 mm. New rounded shape of the action. Deep cut engraving wrapped around the receiver with a sophisticated decor in English scrolls and bouquets plus new game scene on action sides and bottom. 71 mm barrel length with straight rib and fixed chokes. Interchangeable chokes Optional. Straight grip stock with AAA fancy walnut. Hand rubbed oil finish with hand checkering. Comes in a fitted molded plastic case with combination locks.

# Artisan Collection with round action and Grand Luxe Collection

**Chapuis Armes offers many options for every gun, such as a single:**

- non-selective trigger unit

With round action – Super Orion  
over & under shotguns

Whether you are looking for a finely balanced upland gun or a lightning-fast woodcock shotgun, the new Super Orion Round Design is worth a second look. You may now select a traditional scalloped receiver or an elegant sideplate gun. Both have been painstakingly detailed by hand by our Master Gunsmiths, from the round body to the new detonating. Both come with hand-cut engraving signed by one of our Master Engravers, in a tapestry wraparound fashion. Bottomless blueing on the barrels enhances the quality of the luxury, hand-picked walnut. These are beautiful, very robust indeed shotguns, in a timeless french style. Fast handling, self pointing for impressive game bags, they run the gamut, from driven pheasant missiles to fast raising upland birds – in complete elegance.

**C135 Artisan – Ejector**  
Upland or Woodcock type  
New action, round body receiver, scalloped for better wood-to-metal fit  
Gauges: 12 / 16 / 20 / 28

With round action – Progress  
side-by-side shotguns

CUSTOM  
SHOP

This elegant, lightweight and fast-handling shotgun was only missing a smaller round-body action and a new rounded-out detonating to reach excellence. The receiver is fully hand engraved in a continuous tapestry that frames and enhances delicate new game scenes created by our most gifted Master Engravers. The overall lines are intemporal and reintroduce the true French styling so many connoisseurs were missing. Exceptional walnut is used for stocking, comforting the most exigent hunters who are looking for a very nice gun that will last many seasons.

With round action – Progress  
Serie 3 Express rifles

CUSTOM  
SHOP

Now available with the new Progress Serie 3 action, the Artisan version of these side-by-side rifles present incredibly fast handling, making them ideal for driven game hunts. The round-body receivers enhance the sumptuous walnuts we select for their high contrast and delicate figure. We travel to remote areas in the Caucase where we select standing trees that we insist are prepared, dug out, not felled. Blanks are then cut and transported to our plant where they mature for several years under carefully controlled conditions of humidity and temperature in the dark. Then only are they finally selected, rough machined and painstakingly hand-fitted to the guns in the Artisan Collection before receiving their deep hand-rubbed finish.

#### RGEX Artisan Serie 3 – Ejector

New 28 ga. sized round body action, scalloped for tighter wood-to-metal fit

All barrels 550 mm (22 in.) in length

Available Calibers: 9,3 x 74R – 8 x 57JRS

Average weight: 3 kg

#### RGEX Artisan Serie 3.

New round profile narrow (28 ga.) Serie 3 receiver. The barrels and firing pins are set closer to each other and the detonating has been reshaped and refined. Barrels with double parallel underlugs, new barrel contour, 550 mm (22 in.) length, fitted out with a new “battue” rib, luminescent rear sight and a streamlined foresight. Fully hand-engraved in deep-cut designs wrapping around the receiver, with “al bulino” game scenes on bottom of the action, signed by a Master Engraver. Double-trigger “Blitz”-type battery. Pistol grip stock with german cheekpiece carved out of AAAAA luxury walnut hand fitted with skeletonised, engraved steel buttplate, walnut spacer. Hand-rubbed oil finish, hand-cut “gunpowder” checkering wrapping around the entire pistol grip. Comes in a New Prestige Chapuis Armes gun case.

#### REX Artisan Serie 3 – Ejector

# Grand Luxe Collection

**Progress** Express rifles and  
**Super Orion** Express rifles

There is no alternative to individual workmanship when quality is the goal. Highly experienced Master Gunsmiths accomplish many operations by hand, fashioning actions, contouring receivers and detonating, polishing the rough metal and bare walnut, cutting exquisite checkering. Then they hand over the essential parts to engravers who will in turn make them unique. Deep-cut floral or foliage motifs underline exquisite bouquets and refined “al bulino” game scenes, carrying on the external spirit of the hunt and the hunter. The rarest walnut blanks, matured to perfection, hand finished in linseed oils, are checkered by hand. This is flawless gunmaking at its best.

## HGEX Imperial – Ejector

Available Calibers: 9,3 x 74R –  
8 x 57JRS – 7 x 65R – 30R Blaser –

# Grand Luxe Collection

## Engravings

These engravings have been produced by our best Master engravers, some of which are recognised as the best craftsmen in Europe. Varying techniques and engraving tools are used, depending on individual taste and trade. Extraordinary realism can thus be achieved. Several hundred hours are often necessary to the completion of an engraving masterpiece, with perfection as a shared goal. Many more engraving patterns and examples can be found on our website.
